

Commonwealth Bank

Building an iOS Widget

By: Mingxuan Li

Task specification and Design requirements

Design a small, medium and large widget for the new IOS 14 for both iphone and ipad users.

- Clearly state the current balance
- State the last three transactions
- Use commonwealth's color scheme and font (same to the main app shown Below)

Brand colors and fonts

Verdana – body text,
navigation

Helvetica Neue –
headers, titles

	R	G	B	Hex
	0	0	0	#000000
	102	102	153	#666699
	154	154	188	#9B9BBC
	204	204	204	#CCCCCC
	239	237	237	#EFEDED
	255	204	0	#FFCC00
	255	255	204	#FFFFCC
	255	255	255	#FFFFFF
	204	51	0	#CC3300

UX Design

(Small, Medium and Large)

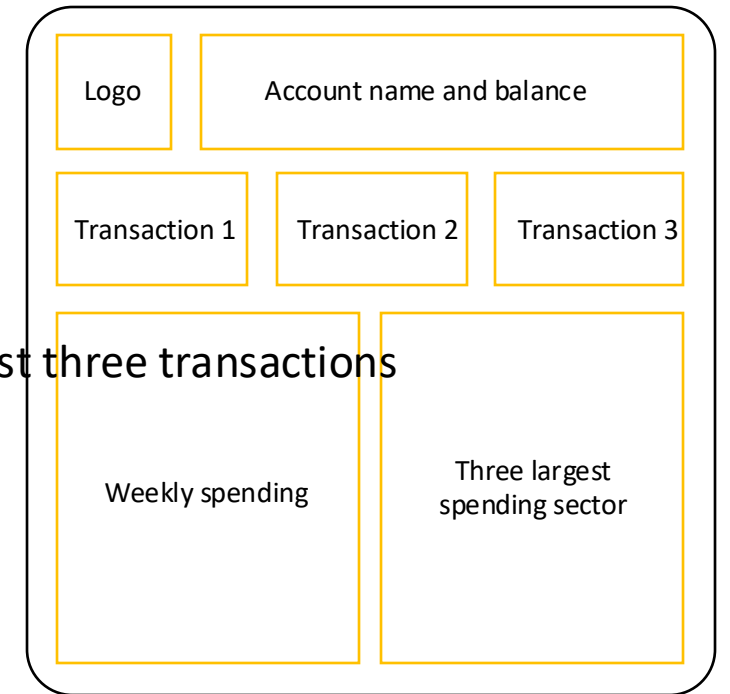

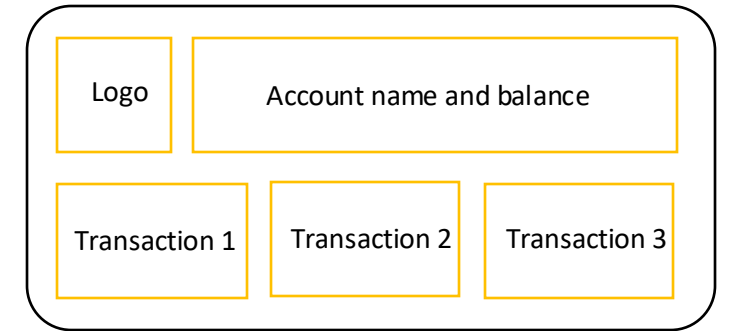

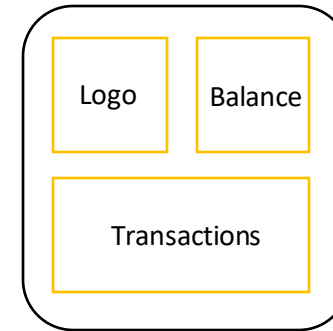

- Each design include a logo to represent which Bank info they are viewing from
- Includes the current balance of the user
- Includes the last three transactions

(Medium and Large)

- Should show the name of the balance account
- Should show which of the sector (Food, Grocery, etc.) did the user made the last three transactions

(Large)

- Should include the weekly spending
- Should include the three largest sector user spent in

UI Design

(Small, Medium and Large)

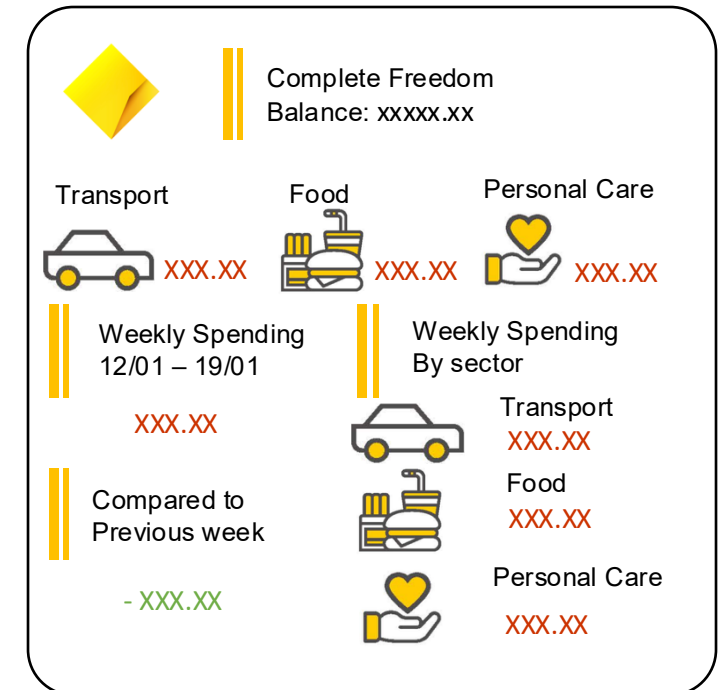

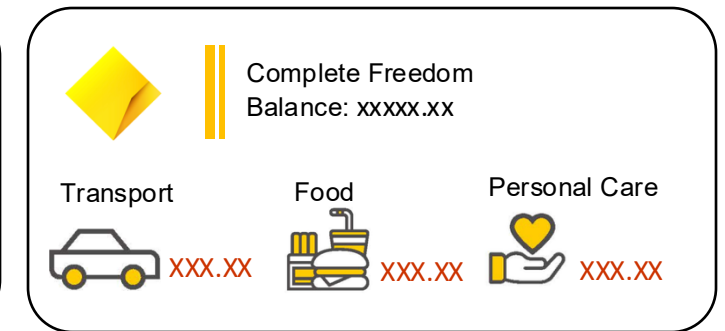

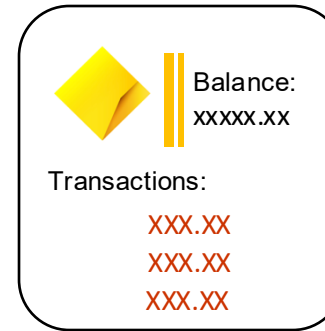

- Vardana font for Body and Text
- Helvetica font for Heading and Titles
- Use red color to represent transactions

(Medium and large)

- Show the account names
- Use icon and title to represent the sectors

(Large)

- Show the date for the week in question
- Compare to previous week
- Use green to show reduction of spending

Showcase within IOS devices
